

Age and Availability

At Atwood Ranch Naturally we specialize in young horse development. Horses are offered for sale throughout the year.

AR yearlings will be available upon completion of the Parelli Pre-Saddle Training™ criteria. However, deposits will be accepted earlier to reserve your selected partner.

In addition, we start and develop a few select two-year-olds. They have solid ground skills, have experienced light ranch work and are available immediately. Inquire for more details.

Matchmaking Services

At the Atwood Ranches we take great pride in our horses excelling as performance horses. We are equally proud when they become productive ranch horses or thrive in the hands of a passionate student on a personal journey of horsemanship.

Our specialty is matchmaking. Our team aims as much to assist you in choosing your new equine partner as we do in selecting a perfect human match for each of our young horses.

We encourage guests to come to the ranch for a unique buying experience. Check out the horses playing and socializing in their pastures and browse through their scrapbooks and progress reports. Enjoy playing with a few horses in our fun playground full of natural obstacles in a no-pressure environment. Find that perfect partner—that special connection.

Pricing

Our young horses are divided into price categories based on their breeding, level of education, talent, and looks. We are pleased to be able to offer special introductory pricing. Yearlings are priced starting at \$4500, while our select two-year-olds start at \$7000.

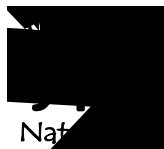

Education

Our mission at Atwood Ranch Naturally is to educate and develop our AR bred, young horses utilizing the philosophy, concepts and principles of Parelli Natural Horse-Man-Ship™. We are pleased to offer quality, well bred, young horses to the public with the skills necessary to ensure the success of both the horse and human in their future partnership.

Our Quarter Horses are handled as weanlings and yearlings by Parelli certified, young horse specialists. These specialists, headed by Kalley Krickeberg, have extensive training, education and experience in young horse foundations and development . . . a terrific start for your next partner.

At Atwood Ranch Naturally we care about the future of every horse we raise. We are looking for owners who also have an eye to the future, and who plan to continue their young horse's education naturally. Begin a new chapter in your journey with an Atwood Ranch horse.
